RE: SR# HCE-20190122-1810

Property Address: 1514 Woodland Avenue
Pittsburgh, PA 15212

Dear Sir/Ma'am:

Pursuant to Article XI entitled "Hearings and Appeals," I am hereby exercising my right to appeal the decision set forth on September 17, 2019 by the ACHD Housing Division.

I am appealing for several reasons. The following is a list with description:

- Below Ground Level – Basement: Section 632 A 052 (O)(D), Class 3, Location: Floor, Violation: Broken or leaking waste line from laundry tub, Remedy: Repair per Health Department Plumbing Code (Article XV) ---- **INCOMPLETE as of 10/04/2019, not cited**
- As a result of remedy for Section 624 034 (O)(D), additional damage was created around the door frame, now creating chipping layers of paint and a hole in the wall.
- By all codes sighted that required drywall hanging and patchwork/sanding performed, the entire house is consumed with drywall sanding dust that is inches thick, thereby causing breathing trouble and damage to personal property, as well as making the home inhabitable.
- The rushed job that was performed and the lack of concern for the safety of myself and my son. Beyond the four years I've complained about but laughed in the face of the authority that deals in health and safety by procrastinating and doing incomplete work.

I humbly submit this request in addition to what Mr. Deutsch has been recited for at this time. I would like to be this case to be reconsidered.

Thank you for your time.

Sincerely,

Lindsay M. Loker
