Since 1967, The Bair Foundation has strived to meet the needs of God's children. Our primary mission is to provide quality care and services to children and adolescents who cannot remain with their families by placing them in loving, stable homes; while simultaneously working with the child's birth family towards the primary goal of reunification. We are affiliated with the Statewide Adoption and Permanency Network and provide pre-service and on-going training to potential and current foster parents. It is our goal to give children and adolescents in need the very best opportunity to grow and thrive physically, mentally, and emotionally while in a family setting. We are doing all we can, but we cannot do it alone. Please consider being a source of light and hope to these children when they need it most!
