Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each major fund and the aggregate remaining fund information of the Authority as of December 31, 2018, the respective changes in their financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3-6 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion of the Authority's basic financial statements. The accompanying combining and individual non-major fund financial statements and combining and individual Single Family Mortgage Program Funds schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Residential Finance Authority of Allegheny County (the "Authority") Management's Discussion and Analysis is designated to provide an overview of the Authority's financial activities for the year ended December 31, 2018 and should be read in conjunction with the Authority's financial statements, which begin on page 7.

Financial Highlights

- The Authority's net position decreased by \$784,346 during the current year.
- The Authority has approximately \$20.1 million in net position restricted for loan programs available to fulfill its mission to provide safe, decent, and affordable housing to low and moderate income residents of Allegheny County.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The Authority's basic financial statements consist of two components: 1) fund financial statements and 2) notes to the basic financial statements.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Authority uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the Authority's funds are proprietary funds.

The *Statement of Net Position*, found on page 7, provides information about the Authority's financial position of the various enterprise funds using the accrual basis of accounting. It includes all of the Authority's assets and liabilities and indicates which assets, if any, are restricted as to use. Under the accrual basis of accounting, revenues are recognized when they are earned, and expenses are recognized when they are incurred.

The *Statement of Revenues, Expenses, and Changes in Net Position*, on page 8, reports all of the Authority's earnings and expenses by business-type activity using the accrual basis of accounting.

The *Statement of Cash Flows*, on page 9, indicates how much cash was provided and used by operating activities as well as other cash sources and uses such as investing and financing activities.

Proprietary funds. The Authority maintains one type of proprietary fund. *Enterprise funds* are used to report activities that are intended to recover all or a significant portion of their costs through user fees and charges.

The Authority maintains four individual enterprise funds. Information is presented separately in the proprietary funds' statement of net position, statement of revenues, expenses, and changes in net position, and statement of cash flows for the General Fund and the Single Family Mortgage Program Funds, which are considered to be major funds. Data from the other two enterprise funds are combined into a single aggregated presentation and is presented individually in the form of combining statements elsewhere in this report.

Notes to the Financial Statements. The notes, which begin on page 10, provide additional information that is essential to a full understanding of data provided in the fund financial statements.

Other Information

The combining statements referred to earlier in connection with non-major enterprise funds are presented immediately following the notes to the financial statements, starting on page 23.

In addition, combining schedules for the components of the Single Family Mortgage Program Funds are presented following the combining statements, starting on page 26.

Analysis of Net Position

Net position is a useful indicator of a government's financial position. For the Authority, total assets were greater than liabilities by \$20,255,500 for the year ended December 31, 2018 and \$21,039,846 for the year ended December 31, 2017.

Condensed Statement of Net Position

The following is a summary of the Authority's Statement of Net Position as of December 31, 2018 and 2017:

Changes in Net Position

The Authority's net position decreased by \$784,346 for the year ended December 31, 2018 and by \$831,478 for the year ended December 31, 2017. During the current year, 93.1% of the Authority's operating revenue came from loan and investment interest and 6.9% from other sources. During the prior year, 96.0% of the Authority's operating revenue came from loan and investment interest and 4.0% from other sources.

The following summarizes the Authority's Statement of Revenues, Expenses, and Changes in Net Position for the years ended December 31, 2018 and 2017.

Condensed Statement of Revenues, Expenses, and Changes in Net Position

End of year	<u>\$ 20,255,500</u>	<u>\$ 21,039,846</u>	<u>\$ (784,346)</u>

Investment interest earned declined due to the maturities on the investments held to pay the principal and interest on outstanding bonds. In addition, significant differences occurred in the net change in the fair value of investments, along with one-time expenditures for a return of program income to Allegheny County in the prior year, \$143,054 and issuance costs for the 2017 Series AAA and BBB bonds, \$66,500 in 2018 and 177,454 in 2017.

Financial Analysis of Individual Funds

The following discussion focuses on the Authority's major funds.

The Administrative Fund reported a net position of \$143,267, a decrease of \$14,202 from the prior year, primarily due to the amount paid to Allegheny County for administrative services.

The Single Family Mortgage Program Funds reported a net position of \$19,115,046, a decrease of \$724,572 from the prior year. Principal reasons for the decrease include the absorption of the costs of issuance for the 2017 Series AAA and BBB bonds instead of paying for these costs from the proceeds of the bonds and a significant decrease in the net change in the fair value of investments.

Long-Term Debt

The Authority continued to make principal and interest payments on its existing long-term debt as scheduled. During the prior year, the Authority issued \$8,510,000 in Single Family Mortgage Revenue Bonds, the 2017 Series AAA and Series BBB. In addition, the Authority's long-term debt payments are accelerated when payments on the underlying mortgages for the mortgage-backed securities (i.e. GNMA and FNMA) exceed scheduled payments. The following is a summary of the Authority's long term debt at December 31, 2018 and 2017.

<i>Single Family Mortgage Revenue Bonds</i>	<u>Balance</u>	
	2018	2017
Series TT of 2006	\$ 1,240,000	\$ 1,545,000
Series VV of 2007	3,685,000	4,315,000
Series XX of 2010	2,950,000	3,140,000
Series YY of 2011	3,650,000	4,400,000
Series ZZ of 2011	5,880,000	6,860,000
Series AAA of 2017	3,895,000	4,000,000
Series BBB of 2017	<u>4,315,000</u>	<u>4,510,000</u>
Total	<u>\$ 25,615,000</u>	<u>\$ 28,770,000</u>

More detailed information on the Authority's long-term debt can be found in Note E on pages 15-19 of this report.

ALLEGHENY COUNTY RESIDENTIAL FINANCE AUTHORITY

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Allegheny County Residential Finance Authority (the Authority), have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The significant accounting policies are described below.

1. **Organization and Purpose**

The purpose of the Allegheny County Residential Finance Authority is to broaden and stimulate the market for housing, and otherwise improve the quality of life for residents of Pennsylvania. The Authority's principal means of promoting this purpose is through programs that offer below-market interest rate financing for the acquisition of newly constructed or existing housing in the area encompassing the County of Allegheny (the County), with the exception of the City of Pittsburgh. The Authority has offered such financing both directly, by issuing mortgage loans, and indirectly, by acquiring Government National Mortgage Association (GNMA) and Federal National Mortgage Association (FNMA) mortgage-backed securities originated specifically through Authority programs.

The Authority issues revenue bonds to enable funding of these programs. Each bond series is payable from receipts derived by the Authority from the corresponding program. In addition, substantially all other Authority assets are secured and are restricted to use for specified programs or debt service until the related debt is retired.

The Authority is a public instrumentality and body corporate and politic of the Commonwealth of Pennsylvania (the Commonwealth) established in 1981 pursuant to the Second Class County Code of the Commonwealth.

The County Executive appoints a Board of Directors (the Board), comprised of up to twelve County residents, which governs the Authority. The County has not included the Authority in its reporting entity because the County's accountability for the Authority does not extend beyond making these appointments.

2. **Basis of Accounting**

The Authority has various programs that are reported as separate Enterprise funds. The Authority accounts for its programs on the accrual basis of accounting in accordance with the provisions of the Government Accounting Standards Board ("GASB") Statements. Accordingly, revenues are recorded when earned and expenses are recorded when incurred.

Operating revenues and expenses consist of those revenues and expenses that result from the ongoing principal operations of the Authority. Operating revenues consist primarily of interest of investments and loans and fees. Non-operating revenues and expenses consist of those revenues and expenses that are related to financing and investing types of activities and result from non-exchange transactions, such as capital contributions, grants or ancillary activities.

When an expense is incurred, for purposes in which there are both restricted and unrestricted net position available, it is the Authority's policy to apply those expenses first to restricted net position, to the extent that such is available, and then to unrestricted net position.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

3. Description of Funds

These financial statements include all activities of the Authority using a fund accounting basis. A fund is a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual net position, and changes therein, which are segregated for the purpose of carrying on activities in accordance with regulations, contractual restrictions, or other limitations.

The Authority reports the following major proprietary funds:

- Administrative Fund: The Administrative Fund accounts for centralized administrative support provided by the Authority to its enterprise funds. Administrative expense includes support services provided by the County's Department of Economic Development.
- Single Family Mortgage Program Funds: Each Single Family Mortgage Fund was established by the issuance of mortgage revenue bonds for the purpose of enabling The Authority to offer financing for the acquisition of newly constructed or existing single-family housing. The Authority offered financing directly for Single Family Services B, C, and D in the form of mortgage loans. These mortgage loans are recorded in the Bond Defeasance Fund. The Bond Defeasance Fund includes assets and related liabilities for single-family program where the related indebtedness has been retired. The remaining Series entail indirect financing through the acquisition of GNMA and FNMA mortgage-backed securities originated specifically for Authority programs. In both cases, the financings are characterized by interest rates below the rate prevailing in the market at the time of the program.

In addition, the Authority reports the following non-major proprietary funds.

- Community Development Fund: The Community Development Fund accounts for the revenues and expenses of community development block grant programs undertaken for the purpose of providing down-payment assistance to eligible residents of the County.
- Housing Development Fund: The Housing Development Fund accounts for collections of loans and grant funds on behalf of the County which were previously collected by the Housing Development Corporation (HDC). HDC was dissolved in 1994, and the assets of HDC were transferred to the County. In 1994, the Authority began collecting the loan and grant funds. The funds are held by the Authority in the Housing Development Fund pending a disbursement request by the County for use as permitted under the terms of the original grant agreements.

4. Cash and Cash Equivalents

For purposes of the statement of cash flows, cash and cash equivalents include all highly liquid instruments with original maturities of three months or less.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

5. GNMA and FNMA Securities

The GNMA and FNMA Securities are mortgage-backed securities guaranteed by the GNMA or FNMA, respectively. GNMA is wholly-owned corporate instrumentality of the United States within the Department of Housing and Urban Development. FNMA is a federally chartered, stockholder-owned corporation.

These securities are categorized by their fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

6. Unearned Revenue and Expenses

The inception of Single Family and Multi-Family Mortgage Programs can entail several types of transactions for which related revenue or expense recognition is deferred. Bond issues can entail costs of issuance and underwriters discounts that are deferred expenses. Mortgage and GNMA inception can entail origination and commitment fees received by the Authority that are deferred revenues.

Program revenue, restricted as to its use by grant agreements, is recognized in the proprietary funds to the extent allowable expenses are incurred. Any excess of program income over expenses is recorded as unearned revenues.

7. Net Position Components

Net position is classified into three components – net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

Net investment in capital assets: This component of net position consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvement of these assets. There was no net investment in capital assets at year-end.

Restricted: This component of net position consists of constraints placed on net position use through external restrictions imposed by creditors (such as restrictions on usage by bond issuance). The Authority reports net position restricted for its lending and lending support programs at year-end.

Unrestricted: This component of net position consists of net position that do not meet the definition of “restricted” or “net investment in capital assets.” The net position of the Administrative Fund was unrestricted at year-end.

NOTE B – DEPOSITS AND INVESTMENTS

Pennsylvania statutes provide for Authority investment of governmental funds into certain authorized investment types, including insured or collateralized time deposits and certificates of deposit. The statutes allow pooling of governmental funds for investment purposes. The Trustee for each bond series is responsible for investing funds pursuant to restrictions designed to mitigate the risk of investing funds, including monitoring entities that have provided guaranteed investment contracts.

The deposit and investment policy of the Authority adheres to state statutes. Deposits of the governmental funds are either maintained in demand deposits or money market accounts. There were no deposit or investment transactions during the year that were in violation of either the state statutes or the policy of the Authority.

GASB Statement No. 40, "Deposit and Investment Risk Disclosures," requires disclosures related to the following deposit and investment risks: credit risk (including custodial credit risk and concentrations of credit risk), interest rate risk, and foreign currency risk. The following is a description of the Authority's deposit and investment risks:

Custodial Credit Risk - Deposits: Custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. The Authority does not have a formal policy for custodial credit risk. As of December 31, 2018, approximately \$6,407,000 of the Authority's bank balance was exposed to custodial risk. However, this balance is collateralized in accordance with Act 72 of the Pennsylvania state legislature, which requires the institution to pool collateral for all governmental deposits and have collateral held by an approved custodian in the institution's name.

The Authority also has deposits in various short-term investment vehicles, including the Pennsylvania Local Government Investment Trust ("PLGIT"). These funds are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book form. The Authority has approximately \$108,700 invested with PLGIT and \$9.6 million invested in other short-term investment vehicles.

Interest Rate Risk - Investments: The Authority does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, the investments held by the Authority are primarily comprised of assets securitized in the secondary market from loans issued from the various single family and multi-family loan programs. The maturities noted in the table below reflect the final maturity of the respective security and do not take into consideration routine repayments on principal as the underlying assets pay down, as it is not possible to forecast these repayments. It is management's intention to hold these securities until maturity. Interest rates on these investments are fixed, and principal and interest repayments from these investments will be used to repay the related debt service.

Credit Risk: The Authority does not have a formal investment policy that would limit its investment choices based on credit ratings by nationally recognized statistical rating organizations. As of December 31, 2018, the Authority's investments are unrated.

Fair Value - Deposits: The Authority's investments in PGLIT and the other short term investments are exempt from fair classification since their value is calculated at amortized cost which approximates fair value for short term investments.

Fair Value - Investments: The Authority's investments in FNMA and GNMA are classified as Level 1 under the fair value hierarchy. The Authority's investment in AEGON GIC is exempt from fair value classification.

NOTE C – SINGLE FAMILY PROGRAM MORTGAGE LOANS

The Authority issued Single Family Mortgage Loans for homes in the County, excluding the City of Pittsburgh, pursuant to programs each year from 1982 through 1985. The originating mortgage lender was required to ensure that each loan initiated under these programs, among other conditions, was:

- 1) Secured by a first lien mortgage on an insured title;
- 2) Made substantially in accordance with the current standard overwriting policies of the originating mortgage lender and the program;
- 3) Compliant with IRS Code §103(b) designating borrower eligibility requirements necessary for tax-exemption of the program's bond interest; and
- 4) For an amount not exceeding 80% of the lesser of fair market value or purchase price, or was insured by a primary mortgage insurance policy that would pay the Authority's principal and accrued interest outstanding as well as certain administrative costs in the event of foreclosure.

These requirements at origination, combined with the efforts to entities contracted to service all outstanding mortgage loans, have allowed the Authority to incur no significant loan losses. The risk of loss is further mitigated by a mortgage pool insurance policy for each program against delinquencies. Based upon payment experience, insurance against losses and the status of loans at year-end, the Authority believes no provision for loan losses is necessary at December 31, 2018.

The total original principal amount was \$139,140,000. As of December 31, 2018, the balance is \$12,004.

The interest rate for Series D is 9.70%. During 1996, the interest rates for Series C (1984) mortgage loans initially bearing interest at 11% and 8% were reduced to 7.75% and 4.75%, respectively. During 1999, the interest rate for Series B (1984) mortgage loans initially bearing interest at 10.25% was reduced to 3.43%.

NOTE D – GNMA AND FNMA SECURITIES

The Single-Family Mortgage Program Fund, Series T&U, AA&BB, CC&DD, EE&FF, HH&H, JJ&KK, LL&MM, NN, OO&PP, QQ, RR&SS, TT, and UU&VV purchased GNMA and FNMA mortgage-backed securities during 2009. These securities provide payment of principal and interest and are backed by pools of mortgage loans that have been originated by a number of lending institutions to qualified persons to finance the

purchase of single family residential housing within the County, excluding the City of Pittsburgh. These securities are not pledged to any one indenture but are available for repayment of bonds within the single-family mortgage program.

These GNMA and FNMA securities were acquired at original face value and are carried at face value adjusted for any discount or premium. The remaining principal, net of unamortized premium or discount where applicable and corresponding interest rates are:

The following table shows the changes in long-term debt for the year ended December 31, 2018:

Long Term liabilities	\$ 28,770,000	\$ -	\$ (3,155,000)	\$ 25,615,000	\$ 1,250,000

The Authority issues mortgage revenue bonds to finance its programs. These bonds are limited obligations of the Authority, secured solely by the assignment and pledge of substantially all of the corresponding mortgage program fund's assets. Because of this secured interest, the Authority is restricted in the use of virtually all assets of the mortgage program funds and has vested the rights and responsibilities of receiving, managing, and disbursing funds with trustees engaged for each bond issue. This restriction causes net position to be effectively restricted until the corresponding bond issue is retired. The bonds are not obligations of the County, the Commonwealth, or any political subdivision of the Commonwealth.

Most of the bond issues provide for retirements to be accelerated from the original schedule in the event of prepayments of the underlying mortgages, GNMA or FNMA securities or if funds are otherwise available as provided in the respective trust indentures. The maturity schedules presented on the following pages do not contemplate such accelerated retirements or mandatory sinking fund repayments, as these are difficult to predict due to the Authority's practice of calling bonds early.

Single Family – Series NN, OO, & PP

During 2004, the Authority issued \$14,800,000 of Single Family Mortgage Revenue Bonds. A portion of the proceeds of the Series NN & OO Bonds was used to provide funds for the partial refinancing of outstanding Single Family Series Y, and Z, as well as to repay a portion of the Authority's Single Family Mortgage Revenue Notes, Series 2002. The Series NN bonds matured during the prior year. The Series OO and Series PP bonds were retired by a current refunding in connection with the issuance of the Single Family Mortgage Revenue Bonds, 2017 Series BBB.

Series PP Bonds were variable rate term bonds due November 1, 2035. The bonds bear interest at a weekly rate, payable on May 1, and November 1. The weekly rate is determined by a remarketing agent, but the variable rate may not exceed 12%. The weekly rate at December 28, 2018, the date of the current refunding, was 1.19%.

Interest was payable semi-annually in May and November. Interest on the fixed rate bonds, Series NN and OO, range from 2.55% to 4.75%. As of December 31, 2018, the Series NN, OO and PP Bonds had principal outstanding of \$-0-, \$-0-, and \$-0-, respectively.

Optional Redemption

The Series NN and Series OO bonds maturing on and after May 1, 2015 were redeemable at the option of the Authority, on and after November 1, 2014, in whole or in part, on any date, at the redemption price of 100% of the principal amount, plus accrued interest thereon to the date fixed for redemption.

Mandatory Redemption

The Series OO Bonds maturing on May 1, 2019 and November 1, 2024, respectively were subject to mandatory redemption prior to their stated maturity dates, in part, at principal amounts plus accrued interest to the date fixed for redemption.

The Series PP Bonds maturing on November 1, 2035 were subject to mandatory redemption prior to their stated maturity dates, in part, at principal amounts plus accrued interest to the date fixed for redemption.

Single Family – Series AAA and BBB

During December 2017, the Authority issued \$8,510,000 Single Family Mortgage Revenue Bonds as Series AAA, \$4,000,000, and Series BBB, \$4,510,000. The Series AAA bonds will be used for the origination of single family mortgage loans. The Series BBB bonds were used for a current refunding of the Series OO and Series PP bonds. The current refunding of these bonds led to an increase in total debt service payments over the next 18 years of \$55,461 and an economic loss (the difference between the present values of the old and new debt service payments) of \$779,717 using the variable interest rate of 1.19% as of year end for the Series PP bonds. Using the maximum variable interest rate of 1.96% for the Series PP bonds would lead a decrease in the total debt service payments of \$400,534 and an economic loss of \$413,386. In addition, the Series PP bonds required an annual payment of 1.0621% for liquidity facility fees and remarketing agent fees of 0.125%. Including these fees into this analysis leads to a decrease in the total costs associated with Series PP bonds of \$647,322 and \$1,057,037 calculated using the current variable interest rate and maximum rate, respectively; an economic loss of \$215,124 calculated with the current variable interest rate, and an economic gain of \$150,582 using the maximum rate.

Interest is payable on May 1, 2018 and thereafter semi-annually in May and November, commencing on May 1, 2018. Interest on the Series AAA bonds range from 3.35% to 3.80%. Interest on the Series BBB bonds range from 1.60% to 3.40%. As of December 31, 2018, the Series AAA Bonds had principal outstanding of \$4,000,000, with a final maturity in the year 2047. As of December 31, 2018, the Series BBB had principal outstanding of \$4,510,000 with a final maturity in the year 2029.

Optional Redemption

The Series AAA and Series BBB Bonds maturing on or after November 1, 2026 are redeemable at the option of the Authority on the first business day of each month, in whole or in part, on any date, from any maturities selected by the Authority, at the redemption price of 100% of principal plus accrued interest.

The Single Family – Series WW bonds were converted into the following tranches: Single Family – Series XX, \$5,750,000, Single Family – Series YY, \$7,000,000, and Single Family – Series ZZ, \$11,580,000.

NOTE F – CONDUIT DEBT

During 2006, the Authority served as an issuer of \$8,500,000 of Multi-Family housing revenue bonds for Cambridge Square Apartments. The bond proceeds were provided for the acquisition, rehabilitation, and/or equipping of a multi-family rental housing facility. The principal and interest on the bonds is to be repaid solely and exclusively by the borrower. The Authority has no-commitment for this debt and does not anticipate acting in any related ongoing administrative capacity. Accordingly, this no-commitment debt is not presented on the face of the Authority's financial statement.

During 2008, the Authority served as an issuer of \$4,940,800 of Multi-Family housing revenue bonds, Series A, B, and C for the Broadview Manor Apartments, Allegheny Independence House Apartments, and Versailles-Archer apartments projects, respectively. The bond proceeds were provided for the acquisition and rehabilitation of the projects. The principal and interest on the bonds is to be repaid solely and exclusively by the borrower. The Authority has no-commitment for this debt and does not anticipate acting in any related ongoing administrative capacity. Accordingly, this no-commitment debt is not presented on the face of the Authority's financial statements.

During 2009, the Authority served as an issuer of \$3,485,000 of Multi-Family housing revenue bonds, Series 2009 for the Metowers Apartments project. The bond proceeds were provided for the acquisition and rehabilitation of the apartment. The principal and interest on the bonds is to be repaid solely and exclusively by the borrower. The Authority has no-commitment for this debt and does not anticipate acting in any related ongoing administrative capacity. Accordingly, this no-commitment debt is not presented on the face of the Authority's financial statements.

During 2013, the Authority served as an issuer of \$4,500,000 of Multi-Family housing revenue bonds, Series 2013 for Rolling Woods Apartments LP. The bond proceeds were provided for the acquisition and rehabilitation of the apartment building. The principal and interest on the bonds is to be repaid solely and exclusively by the borrower. The Authority has no-commitment for this debt and does not anticipate acting in any related ongoing administrative capacity. Accordingly, this no-commitment debt is not presented on the face of the Authority's financial statements.
