\*Cases meeting the 2021 CDC print criteria were included. Case classification status (confirmed, probable, possible, suspect, unknown, not a case) is factored into a condition's print criteria, the standards upon which CDC can publish cases in national reporting.

\*\*Print criteria changed sometime between 2012-2021

\*\*\*Includes influenza A, influenza B, and influenza other or influenza unspecified

¥ The case definition for acute hepatitis C changed in 2020

Note: For more data on sexually transmitted infections, see [Workbook: STD Dashboard v12 \(alleghenycounty.us\)](#) For more data on other selected infectious diseases, see [Workbook: IDE Dashboard](#). For more information on tickborne diseases see [Tickborne Diseases - Allegheny County, PA](#)
