

Hepatitis A is going around.

Hepatitis A is a virus that can cause liver disease.

Protect yourself: Get your hepatitis A shot

Get a vaccine (one shot) if you:

- Are experiencing homelessness
- Use drugs/alcohol
- Have liver disease like hepatitis C
- Are a man who has sex with men
- Were recently in jail or prison

Hepatitis A shots will be available:

Allegheny County Health Department
Immunization Clinic
425 First Avenue
Pittsburgh, PA 15219
412.578.8062
